Hydrobiologia

The International Journal on Limnology and Marine Sciences

Contents

Volume 416

Opinion

Contributions to ecology from the study of recruitment in fish populations
by Edward H. Allison 1–11

Hydrology and nutrient dynamics of a sacred lake in Sikkim Himalaya
by Alka Jain, S. C. Rai, J. Pal & E. Sharma 13–22

Direct measures of instream movement in a freshwater shrimp using a genetic marker
by M.A. Hancock & J.M. Hughes 23–32

Influence of basin scale on structure of natural aquatic communities
by Y.G. Kamenir, B.S. Shteinman & P.D. Walline 33–40

Cd, Cu and Zn concentrations in sediments and the invasive bivalves *Limnoperna fortunei* and *Corbicula fluminea* at the Río de la Plata basin, Argentina
by Carlos Villar, Jorge Stripeikis, Liliana D'Huicque, Mabel Tudino, Osvaldo Troccoli & Carlos Bonetto 41–49

Use of the river macrozoobenthos of Serbia to formulate a biotic index
by Vladica Simić & Snežana Simić 51–64

Exploitation by microcrustacea of a new littoral habitat in an acidified lake
by Brenda J. Hann & Michael A. Turner 65–75

Balancing ecological impairment and repair for sustainability
by John Cairns, Jr. 77–83

Restoration of the highly eutrophic Lingese Reservoir
by Wilfried Scharf 85–96

The nutritional status and digestibility of *Oreochromis niloticus* L. diet in Lake Langeno, Ethiopia
by Zenebe Tadesse 97–106

Fish production and food consumption in the Warta River (Poland): continued post-impoundment study (1990–1994)
by T. Penczak 107–123

Pollution-Induced Community Tolerance (PICT) in coastal phytoplankton communities exposure to copper
by Kim Gustavson, S. Petersen, B. Pedersen, F. Stuer-Lauridsen, S. Pedersen & S.-Å. Wängberg 125–138

Cladistic analysis of the *Eudaniela* species complex (Crustacea: Decapoda: Pseudothelphusidae)
by R. von Sternberg, L. A. Galindo & E. M. González 139–147
Influences of temperature and oxygen upon habitat selection by bullfrog tadpoles and three species of freshwater fishes in two Alabama strip mine ponds
by Gordon R. Ultsch, Scott A. Reese, Minghua Nie, Jay D. Crim, Walter H. Smith & Cheré M. LeBerte 149–162
Use of cholinesterase activity to monitor exposure of *Chironomus riparius* (Diptera: Chironomidae) to a pesticide mixture in hypoxic wetland mesocosms
by Sheryl L. Beauvais, Gary J. Atchison, Jana Z. Stenback & William G. Crumpton 163–170
Comparisons of riparian vs. over stream trap location in the estimation of vertical litterfall inputs
by Carmen Cillero, Isabel Pardo & Eva S. López 171–179
Distribution of freshwater snails in the man-made Oyan Reservoir, Ogun State, Nigeria
by Ifeanyi Emmanuel Ofoezie 181–191
The effects of simulated irrigation induced changes in salinity on metabolism of lotic biota
by E.I.L. Silva & Ronald W. Davies 193–202
The influence of aquatic macrophytes on the hydraulic and physico-chemical properties of a New Zealand lowland stream
by Robert J. Wilcock, Paul D. Champion, John W. Nagels, Glenys F. Croker 203–214

Short communication
The role of the invertebrate predator *Leptodora kindti* in the trophic cascade of a lowland reservoir
by Adrianna Wojtal, Piotr Frankiewicz & Maciej Zalewski 215–223

Author Index 225
